

SUSTAINABLE DEVELOPMENT POLICY

Operating in the field of building automation systems and solutions, SBC OTOMASYON SİSTEMLERİ SANAYİ VE TİCARET ANONİM ŞİRKETİ ensures the delivery of high-quality building automation systems and solutions in full compliance with all legal and regulatory requirements in the areas of environmental protection and industrial safety.

By embracing the concept of sustainable development, SBC OTOMASYON SİSTEMLERİ SANAYİ VE TİCARET ANONİM ŞİRKETİ:

1. Supports the fight against climate change and contributes to the conservation of natural resources through the use of green energy sources and energy efficiency measures.
2. Ensures the safe implementation of operations by focusing on occupational health and safety as well as environmental protection.
3. Contributes to the development of the talent pool by systematically organizing training, fostering leadership skills, respecting human rights, and promoting equal opportunities. It opposes all forms of discrimination and expects the same behavior from all relevant parties.
4. Assesses the environmental and social impacts of its operations and strives to minimize potential negative effects by adopting a risk-based mindset and a culture of safe working behavior.
5. Contributes to the economic and social well-being of the local community by creating employment, working with local suppliers committed to its values and ethical procurement principles, and promoting the use of sustainable and environmentally friendly materials.
6. Aims to maximize energy efficiency and reduce its carbon footprint by embracing digitalization, smart systems, and AI-based energy management solutions to enhance sustainability in building automation.
7. Commits to fostering the adoption of innovative and environmentally friendly technologies by collaborating with customers, business partners, and all other stakeholders to develop sustainable solutions.

In line with its sustainable development goals, SBC OTOMASYON SİSTEMLERİ SANAYİ VE TİCARET ANONİM ŞİRKETİ is committed to continuously improving energy efficiency, ethical supply chain management, digitalization, and occupational health and safety. By working in cooperation with stakeholders, the company fulfills its environmental and social responsibilities.

SBC OTOMASYON SİSTEMLERİ SANAYİ VE TİCARET ANONİM ŞİRKETİ ensures the implementation of this Sustainable Development Policy through a clear and measurable sustainable development strategy and plan.
